DEAN’S MESSAGE

Welcome to the United Arab Emirates University (UAEU) and to the College of Business and Economics (CBE). We are honored that you are interested in continuing your education with us.

High-level business professionals serving on our Executive Advisory Board have guided us in establishing a vibrant and supportive learning environment with cutting-edge curricula that has enhanced our reputation and the employability of our graduates. Our faculty experts research a broad range of topics that provide insights into new ways of thinking and learning for business and society. Our faculty and professional staff’s skills, knowledge and commitment combine to enrich the student learning experience.

The CBE is recognized around the world because of our accreditation from AACSB International – The Association to Advance Collegiate Schools of Business (AACSB), the premier accrediting body for business programs. Today, we are the only business unit in the Middle East accredited in both business and accounting. Less than five percent of business programs globally are accredited by AACSB.

The CBE educates more than 3,000 students annually in 10 undergraduate degree programs, two master’s programs, and one doctoral program through four academic departments (Accounting, Business Administration, Economics and Finance, and Statistics). We continue to improve our classroom and beyond-the-classroom experiences for our students in order to provide:

- Encouraging guidance from expert faculty
- Instruction with a global consideration
- Leadership and managerial training from group work and participation in organizations and clubs
- Practical learning through invited speakers, field trips, projects, study abroad programs and internships
- Professional support and career development

You can see that we have much to offer to allow you to achieve your goals and dreams. We look forward to welcoming you as a student in the CBE and helping you build your future.

Prof. Mohamed Tahar Madi
Acting Dean, College of
Business & Economics

OVERVIEW OF THE COLLEGE

The College of Business and Economics (CBE) has offered business programs with a strong tradition of quality teaching, research and service since 1977. Our degree programs have been improved as a result of an emphasis on quality and continuous improvement processes and procedures and the advice of external reviewers from around the globe.

The CBE has incorporated standards set by AACSB International – The Association to Advance Collegiate Schools of Business (AACSB) into its strategic planning since 1993. As a result, the CBE was the first college of business in the Middle East to be accredited by AACSB in 2000. In 2012, our accounting program achieved distinctive accreditation allowed by AACSB. Today, the CBE has the global distinction of being the only business unit in the Middle East accredited in both business and accounting. There are fewer than 750 accredited business programs and only 182 accredited accounting programs around the world out of more than 10,000 such programs.

In 2005, a major revision was made to the CBE Strategic Plan. We established a number of important themes such as market-driven development processes involving our stakeholders, a focus on interactive learning, the use of modern instructional technology, a combination of general ethics with Islamic values, a cooperative and supportive relationship with the external community, an applied research emphasis and, above all, a continuous environment of improvement. These central themes continue to be reflected in our current Strategic Plan and provide direction in our operational activities.

As of 2015-2016, our four academic departments (Accounting, Business Administration, Economics and Finance, and Statistics) with more than 75 full-time faculty and 20 full-time staff support more than 3,000 undergraduate and graduate students in a variety of degree programs taught in English. The CBE offers bachelor's degrees on our main campus in Al Ain. The Master of Business Administration is available in Abu Dhabi, Al Ain and Dubai, and the Master of Professional Accounting is offered in Abu Dhabi. A Doctorate in Business Administration is also available in Abu Dhabi.

The CBE prides itself in supporting the UAE in its commitment to being a knowledge-based economy in which education and research play a critical role. As a result, our knowledgeable and supportive faculty and staff provide opportunities for our students to learn in the classroom as well as outside the classroom.

“Studying at UAEU opened my mind to what I was really passionate about. I started my education in Accounting but then Finance captured my heart. Eventually, I followed my heart with the support and advice of my professors and academic advisors. Also, the extra-curricular activities within the University have boosted my leadership, teamwork and communication skills and have helped me to make some lifelong friends.”

Khulod Mohammed Al Sawafi, Bachelor of Finance and Banking

ACADEMIC PROGRAMS

UNDERGRADUATE PROGRAMS :

- Bachelor of Accounting
- Bachelor of Business Administration (Double track: Any two tracks offered within the Bachelor of Business Administration)

- Bachelor of Economics
- Bachelor of Finance and Banking
- Bachelor of Management Information Systems
- Bachelor of Statistics

MASTER'S PROGRAMS :

- Master of Business Administration
- Master of Professional Accounting

DOCTORAL PROGRAM :

- Doctorate of Business Administration

UNDERGRADUATE INFORMATION

DEPARTMENT OF ACCOUNTING

Bachelor of Accounting

The Accounting program became the first in the GCC and MENA region and only the 10th worldwide outside North America in 2012 to be separately accredited in accounting by AACSB International – The Association to Advance Collegiate Schools of Business (AACSB). The accounting degree is also accredited by the Association of Chartered Certified Accountants (ACCA), one of the largest international professional accounting organizations that qualifies professional accountants. The ACCA accreditation provides our graduates an exemption from up to 50% of the examination papers required to become ACCA certified.

The Bachelor of Accounting degree is designed to provide a comprehensive accounting education for students interested in learning about the preparation of financial statements and how these are audited, the use of accounting information for managerial decision making; the use of advanced management accounting techniques for strategy implementation and performance management and advanced accounting issues.

Accounting undergraduates pursue careers in accounting specialty positions or general business positions where their accounting expertise is valued in private and government organizations nationally and internationally or can follow a postgraduate path through the department's AACSB accredited in accounting Master of Professional Accounting (MPA) degree.

DEPARTMENT OF BUSINESS ADMINISTRATION

Bachelor of Business Administration

Driven by the need to compete in a dynamic, global marketplace, the Bachelor of Business Administration degree provides a broad-based business education with a concentration in a specialty area or a combination of two areas to include Entrepreneurship, Human Resources Development and Management, Marketing, Supply Chain Management and Logistics or a combination of two areas. The degree allows graduates to pursue a wide range of careers in both business and government sectors.

Entrepreneurship

The Entrepreneurship program offers students the opportunity to learn how to use their creative skills in designing and managing innovation-oriented companies. Graduates of the Entrepreneurship program are expected to identify and generate business opportunities, drive business development initiatives and manage a program of activities necessary to develop high value-added, unique products or services to new and existing markets, increasing the value of respective offerings to customers and increasing the value of the firm. Entrepreneurship is particularly relevant for students who are looking for careers as managers with leadership responsibilities to grow and develop businesses, or for those who plan to own their own businesses.

Human Resources Management and Development (HRMD)

Organizations around the world realize that people are

their key assets and that they play a critical role in creating the successes and overall achievements of organizations. Human Resources Management (HRM) is the function within an organization concerned with designing and implementing systems and practices to ensure the most effective use of employees' skills, knowledge, abilities and talents to accomplish organizational goals. The HRMD program is designed to provide students with the basic knowledge and analytical skills needed for

the effective management of human resources in local and international organizations. The program prepares students to examine the strategic challenges faced by different types of organization in formulating and administering human resources policies and procedures. Issues related to strategic human resources management, HR planning, staffing, training and performance and rewards management are discussed in the various courses offered in this program.

Marketing

Marketing is the heart of all businesses, since it is the link between customers and organizations. The Marketing program is designed to balance fundamentals with innovative ideas and practices and to build practical skills in market analysis, decision making and communication. Students learn about the distribution of goods and services, consumer behavior, pricing policies, channels of retail and wholesale distribution, advertising, sales, research and management. Students complete the Marketing program with the ability to engage in sophisticated marketing practices and strategies and with a sound knowledge of marketing's role in society.

Supply Chain Management and Logistics (SCML)

The Supply Chain Management and Logistics program provides students with the managerial foundations and analytical skills needed to implement supply chain principles in modern organizations. In addition to understanding supply chain management, SCML students are equipped with core business skills in functional areas such as cost accounting, human resources, management information systems, marketing and operations, along with basic skills such as critical thinking, leadership and teamwork. These skills are crucial for the UAE to compete in the future and provide services of the highest standard to its citizens and residents.

This program prepares graduates to assume roles as supply chain management professionals or senior managers in organizations working in the UAE, GCC and worldwide. Graduates will work with marketing, operations, accounting, finance and information systems to ensure that products and services are created and delivered, based on a total system view from supplier to end customer.

Bachelor of Management Information Systems (MIS)

The Management Information Systems program prepares students for a successful career by equipping them with effective analytical and managerial skills. Information systems are integral parts of government and business organizations that drive change and innovation. With the advent of social media and mobile technologies, information systems play a key role in society.

Building on the core business curriculum, the MIS program provides students valuable skills in using cutting-edge software tools used in modern organizations and knowledge in the areas of analyzing business needs, designing new systems, project management, database management and gaining actionable intelligence from business data. The program allows students to advance in these areas: MIS, human resources management and development, accounting, finance, entrepreneurship, supply chain management and logistics, and marketing. Students can choose either a pure MIS program or mix MIS with any one of the other areas.

"I am an Accounting major in my fourth and final year at UAEU. Everything I experienced and learned in the past 4 years has far exceeded my expectations. I have had many opportunities to organize events and to participate in many valuable field trips. I would highly recommend this reputable University and program, which has received international accreditation."

Mariam Al Nuaimi,
Bachelor of Accounting

DEPARTMENT OF ECONOMICS AND FINANCE Bachelor of Economics

The Bachelor of Economics degree aims to equip students with a solid understanding of economic theories, applied economics and the statistical techniques necessary to grasp the functioning of a modern economy and to analyze economic problems and policy issues. The program prepares students to effectively use the quantitative research skills they acquire and to develop their writing

and critical thinking skills to help them succeed in their future careers. Students majoring in economics will be able to engage in exciting and creative analyses of real-world problems that form the basis for teaching the key principles of economic analysis.

Economics graduates pursue a wide range of careers in industry, trade, finance and banking, law, government and education. They are employed as applied economists, economic analysts, financial analysts, industrial analysts, international trade economists, labor specialists, market research analysts, investment analysts, social researchers,

credit analysts, urban planners, teachers, etc. Typical employers include the Ministry of Finance, the Central Bank, the Ministry of Foreign Trade, the Economic Development Department, private companies and banks, military services, oil and utilities companies, research institutes and colleges and universities.

Bachelor of Finance and Banking

The Bachelor of Finance and Banking prepares students for a challenging and rewarding career in an evolving business environment where knowledge of finance tools and techniques is required. The Finance and Banking major includes courses such as Principles of Finance, Investment Analysis, Portfolio Management, Financial Derivatives, Corporate Finance, Islamic Finance and Banking and much more with an emphasis placed on practical applications and solving real-life problems.

Finance and Banking graduates may be employed as financial analysts, treasurers, budget analysts, credit analysts, loan officers, financial advisors, brokers, traders, financial sales professionals, private equity professionals, venture capitalists, real estate analysts, financial planners, actuaries, portfolio managers, investment bank analysts, research analysts, etc. Typical employers include commercial banks and financial institutions, investment firms, federal and local governments, the Central Bank, the Ministry of Finance, sovereign funds, insurance companies, consulting firms and organizations in every sector of the economy.

DEPARTMENT OF STATISTICS Bachelor of Statistics

The Bachelor of Statistics degree program prepares students to be functioning statisticians. It provides them with a solid foundation and training in statistical methods and theory, data manipulation, computation and statistical practice. Students choose from four tracks: Statistics,

Management Information Systems, Finance or Information Technology. The Statistics track is geared toward more advanced statistical tools that prepare students for graduate study or for more advanced statistician positions. The other three tracks provide students with basic knowledge in an allied field to prepare them to work as effective statisticians in such sectors.

Graduates of the Department of Statistics become consultants or researchers in many fields, including medicine, government, education, agriculture, business and law, using statistics on a daily basis to perform their jobs to a high standard. They are employed in the statistics departments of government offices, ministries, the police and the armed forces as well as in a variety of private companies.

ADMISSION CRITERIA

To be eligible for admission to the United Arab Emirates University (UAEU), applicants must obtain a minimum of 75%, from either the Science or Arts stream on their Grade 12 Certificate. Applicants must also score above 150 in the CEPA English exam. A valid national identity card and a valid UAE passport are also required.

Interested candidates should use the common National Admissions and Placement Office (NAPO) application form to apply to UAEU. The form is available from secondary schools, UAEU Admissions Office, or NAPO.

Success at UAEU requires proficiency in both the Arabic and English languages. Students admitted to the University are placed either directly into the undergraduate degree program or into the University Foundation Program (UFP). UFP is the bridge between high school and the degree programs offered at UAEU. Placement in a UFP course at an accurate proficiency level will depend on your scores in UFP Placement Exams. There are four levels of English, one to three levels in mathematics and two levels in Arabic.

To be considered for direct admission to an undergraduate degree program, applicants must satisfy the following requirements:

- ▶ Proof of English-language proficiency, which may take one of the following forms:
 - A minimum TOEFL score of 500 or 61 IBT
 - A minimum IELTS score of 5.0
- ▶ Pass a placement test in mathematics (algebra and pre-calculus) and Arabic language

** Please note that these are the minimum admission criteria; further details can be obtained from the Admissions Department.*

GRADUATION REQUIREMENTS

The duration of the undergraduate degree programs is approximately 4 years. Students are required to complete 120 credit hours. Students must complete the minimum 7 semester curriculum plan or maximum 14 semester curriculum plan with a minimum GPA of 2.0, including the internship.

INTERNSHIPS

UAEU has integrated mandatory internships for all undergraduate students as part of their degree program. The College of Business and Economics students are required to take a 4 week preparation course prior to starting their 3 month internship. The internship unit places students in national and international private or government organizations for the period of their work placement. Internships add a significant real-world component to students' education and provide students with the opportunity to earn academic credit while gaining valuable work experience.

CAREER OPPORTUNITIES

A degree from the CBE opens many doors for career opportunities in the business world, both in private and government organizations. Many of our students go on to successful careers in their subject specialty, others pursue more general business careers and some graduates have successfully started their own businesses. The Undergraduate Information section explains the types of jobs available upon completion of each program.

"I am truly thankful for my time at the College of Business & Economics in the Marketing program which has provided me with an abundance of knowledge and great memories. I entered the program with limited knowledge about Marketing and the marketplace, but thanks to a comprehensive and structured course which is taught by highly skilled lecturers who bring a wealth of experience and knowledge from within the industry, I now feel job ready. Who knows, I might even start my own business someday."

Maitha Al Mansouri,
Bachelor of Business Administration
(Marketing)

GRADUATE INFORMATION

MASTER OF BUSINESS ADMINISTRATION (MBA)

The MBA program in the College of Business and Economics (CBE) at the United Arab Emirates University (UAEU) offers advanced graduate management education to qualified men and women in the United Arab Emirates. Our MBA program was established in 2001 and is accredited by AACSB International – The Association to Advance Collegiate Schools of Business, the premier accrediting body for business programs globally.

The MBA program provides a transformational learning experience for those already working in private and public sector organizations through part-time study in the evenings. The ideas, perspectives, knowledge and tools students acquire while in the program have a powerful and lasting impact on them and their careers. The MBA program is currently offered in Abu Dhabi (general management or manufacturing excellence), Al Ain and Dubai.

ADMISSION CRITERIA

- ▶ Candidates must hold a Bachelor's degree from an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research. The degree may be related or unrelated to business.
- ▶ Candidates must have a cumulative Grade Point Average (GPA) of 3.0 on a 4.0 scale, or equivalent, in all undergraduate work.
- ▶ Candidates must have a minimum of one year's work experience, so that they have a better understanding of business conditions and can contribute to the discussion

and teamwork dimensions of the program.

- ▶ A score of at least 6.0 on the IELTS (International English Language Testing System) Academic exam or equivalent is required. This test score must be less than two years old at the time of application, with the following exceptions:
 - A native speaker of English who has completed his/her undergraduate education in an English-medium institution and in a country where English is the official language; or
 - An applicant with an undergraduate degree from an English-medium institution who can provide evidence of acquiring a minimum TOEFL score of 500 on the paper-based test, or its equivalent, at the time of admission to his/her undergraduate program.
- ▶ A Statement of Purpose is required, outlining the candidate's motivation to join the MBA program.
- ▶ All candidates will be required to have a formal interview in English. The applicant may be asked to write a short paragraph in English during the interview process.

Under certain conditions, admission into the MBA program may be granted if the GPA or the IELTS score is less than the minimum requirement. These requirements are subject to the general university criteria for admission to graduate programs and may be updated regularly.

** Please note that these admission requirements may be subject to change. Please refer to the UAEU website for further details.*

FEE STRUCTURE

Description	Al Ain	Dubai	Abu Dhabi	Abu Dhabi Manufacturing Excellence*
Non-Refundable Application Fee	350	350	350	N/A
Bridging Program	3,000	3,000	3,000	N/A
4 Semesters @AED21,600/Semester	86,400	86,400		
4 Semesters @AED32,508/Semester			130,032	
4 Semesters @AED35,000/Semester				140,000
Administrative/Locational charges 4 Semesters at AED8,813		35,250		
(TOTAL AED)	89,750	125,000	133,382	140,000

*Specialized program designed in collaboration with manufacturing industry partners.

GRADUATION REQUIREMENTS

The program is organized on a cohort basis. Students are expected to complete the degree requirements in 4 semesters (two academic years). They must complete the minimum required 48 credit hours consisting of 16 courses with 3 credits each.

The 16 courses include:

- 12 Common Core Courses (36 credit hours)
- 4 Elective/Project based Courses (12 credit hours)

MASTER OF PROFESSIONAL ACCOUNTING (MPA)

The Department of Accounting has launched the first AACSB-accredited MPA program in the GCC and MENA region in Abu Dhabi in 2013 to meet local demand for accounting practitioners and managers. The MPA program caters to practicing accountants and managers who would like to further their education with a graduate degree. The degree is a natural route to a Doctorate of Business Administration (DBA).

Students whose undergraduate degree is not in accounting, or with limited or no background in accounting

and/or business will have to successfully complete foundation courses before they are formally admitted to the program. However, these courses will not count toward the total credit hours required for the program. Those students who have a limited background in accounting (mainly business students) will be asked to successfully complete two foundation courses before they are admitted to the program. As for students without a relevant degree (mainly non-business students), they will be asked to take four foundation courses. In addition, applicants without a formal business background will be subject to an individual assessment on a case-by-case basis to make sure that they have the basic competencies and knowledge (mainly in economics and statistics) needed for acceptance to the program.

ADMISSION CRITERIA

- ▶ Candidates must hold a Bachelor's degree from an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research.
- ▶ Candidates must have a cumulative Grade Point Average (GPA) of 3.0 on a 4.0 scale, or equivalent, in all undergraduate work.
- ▶ Candidates must have a score of at least 6.0 on the IELTS (International English Language Testing System) Academic exam or equivalent. This test score must be less than two years old at the time of application, with the following exceptions:
 - A native speaker of English who has completed his/her undergraduate education in an English-medium institution and in a country where English is the official language; or
 - An applicant with an undergraduate degree from an English-medium institution who can provide evidence of acquiring a minimum TOEFL score of 500 on the paper-based test, or its equivalent, at the time of admission to his/her undergraduate program.
- ▶ A complete application package must include the following:

- A completed application form;
 - The required non-refundable application fee stated on the form (AED 1,000). This fee must be paid prior to consideration of the application;
 - Two certified copies of official transcripts from all colleges or universities attended (the applicant must arrange for these to be sent directly to the Office of the Registrar and Dean of Enrollment);
 - An official copy of the applicant's IELTS certificate or equivalent.
- ▶ Candidates will be required to have a formal interview in English.
 - ▶ Candidates will be required to submit two letters of recommendation.

Under certain conditions, admission into the MPA program may be granted if the GPA or the IELTS score is less than the minimum requirement. These requirements are subject to the general university criteria for admission to graduate programs and may be updated regularly.

**Please note that these admission requirements may be subject to change. Please refer to the UAEU website for further details.*

FEE STRUCTURE

The fee for the MPA is AED 100,000, inclusive of application and registration fees.

GRADUATION REQUIREMENTS

The total number of credit hours required to complete the MPA program is 36 hours, comprised of 12 units as follows:

- Core: 8 courses x 3 credit hours = 24 hours
- Electives: 4 courses x 3 credit hours = 12 hours

Teaching will be through evening sessions. Each semester (Fall and Spring), four courses will be offered. This translates into 8 courses every academic year with 3 semesters required to complete the 12 courses. Each course is equivalent to 3 credit hours which comprise 48 contact

hours (inclusive of class hours, compulsory group work, and supervised field projects). Students are expected to achieve a minimum GPA of 3.0 on a 4.0 scale to graduate.

DOCTORATE OF BUSINESS ADMINISTRATION (DBA)

The DBA program is designed for senior-level executives and research-oriented working professionals. It is aimed at expanding their management knowledge and equipping them with broad process management and research skills that enable them to understand and successfully address the complex issues that characterize today’s global, highly competitive business environment.

The DBA program is a four-year, blended part-time program taught in English and is structured in two stages. *Stage One* consists of two years of coursework that covers research philosophies, qualitative and quantitative research methods, research in support of business functions, literature review and critique, human factors and social responsibility (eight courses varying from 1.5 to 7.5 credits for a total of 24 credits or 256 contact hours).

Stage Two lasts two years and comprises the DBA thesis (24 credit hours). In *Stage Two*, the formal teaching aspect of the program ends, and students are expected to use the knowledge gained from *Stage One* to undertake a research investigation that represents an original contribution to professional thinking and practice and has high academic merit. DBA students often tackle issues of real importance to their own organizations, thus delivering high-utility outcomes while enjoying the rewards of seeing their solutions beneficially implemented. During *Stage Two*, each student’s work will be overseen by a Thesis Committee. The DBA program is completed after successful submission and defense of the dissertation. The DBA program must be completed within six years maximum.

ADMISSION CRITERIA

- ▶ A completed Master’s degree in business (MBA, MA, MSc or equivalent) or in a related discipline from an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research.
- ▶ At least five years of combined relevant work experience at executive/management level, pre or post Masters.
- ▶ A minimum cumulative GPA of 3.0 on a 4.0 scale or equivalent, in the Master’s degree earned at an accredited university recognized by the UAE Ministry of Higher Education and Scientific Research.
- ▶ A score of 6.0 or higher on the IELTS Academic exam or equivalent. This test score must be less than two years old at the time of application.
- ▶ Three letters of recommendation.
- ▶ A 1,000-word outline of the candidate’s motivation to join the DBA program.
- ▶ A personal interview with the DBA program coordinator and/or other DBA faculty members.

** Please note that these admission requirements may be subject to change. Please refer to the UAEU website for further details.*

FEE STRUCTURE

Fees	Tuition Per Credit Hour	Total (AED)
Course Work	8,400	201,600
Dissertation Research	2,100	50,400
Application Fee		500
Total Fees (AED)		252,500

GRADUATION REQUIREMENTS

The program is completed after passing the eight taught coursework units and upon successful submission and defense of the dissertation. Students are expected to maintain a minimum GPA of 3.0 to graduate.

RESEARCH CAPABILITIES

RESEARCH CAPABILITIES

The College of Business and Economics (CBE) has a talented team of faculty, administrators and staff dedicated to furthering the College's vision for excellence in research. Our internationally-educated faculty experts conduct basic, applied and instructional research at the frontiers of business and management theories, practices and education.

Research areas of the faculty in the CBE include, but are not limited to, financial reporting and standards, management accounting, organizational performance, accounting education, innovation and creativity, entrepreneurship, human resource management, electronic commerce, logistics, supply chain management, operations research, employment equity, customer relationships, consumer behavior, electronic learning, econometrics, energy economics, monetary economics, international trade, corporate finance, Islamic finance, risk management, banking and financial regulations, times series analysis, forecasting, survey sampling, nonparametric statistics, distribution theory and applied statistics. Results of faculty research projects are published in the world's leading academic and practitioner journals and used by academic scholars and business and organizational leaders.

CBE faculty often pursue research projects with the assistance and collaboration of undergraduate or graduate students. These projects may result in students gaining practical experience by presenting their findings at conferences or in other professional settings or by helping to create and publish written manuscripts in academic journals or trade publications.

CONSULTANCY & COMMUNITY SERVICES

"The knowledge that I gained in this program is like a golden certificate that I will hold in my hands throughout the rest of my life. This is thanks to the world-class faculty, state-of-the-art research facilities and cutting-edge IT infrastructure provided at UAEU."

Yara Ahmad Abu Zahra,
Bachelor of Business Administration
(Supply Chain Management and Logistics)

Faculty members in the College of Business and Economics (CBE) regularly participate in institutional professional and community service and outreach at local, national and international levels. Institutional and professional participation includes serving on university, college and departmental committees for strategic planning, accreditation, curricula, assessment and students, editorial boards for journal and conference publications, conference organizing committees, etc. and reviewing for journals, conferences or research awards.

CBE faculty and staff maintain working relationships with local, national and global organizations in order to enhance teaching, research, outreach, and ultimately student success. Faculty are currently involved in numerous internally and externally funded research projects that address the needs of business and society in the UAE. Students, undergraduate and/or graduate, are collaborating with faculty experts on several of these research projects in order to enhance their research and critical thinking skills.

Faculty in the CBE's four academic departments offer their knowledge and expertise through consulting, training, research, and outreach with public and private organizations around the country and even outside the UAE. Examples include, but are not limited to, the following.

- Department of Accounting faculty work closely with accounting firms in order to contribute to the development of the accounting profession in the country and region.
- Department of Business Administration faculty have been successful in conducting problem-solving initiatives for local businesses through research-based innovative solutions and publishing about these experiences.
- Department of Economics and Finance faculty often share their expertise through conference and workshop presentations on environmental economics, energy economics, international trade and investment, Islamic finance and risk management.
- Department of Statistics faculty members regularly organize and present workshops and training on the use of statistics in the workplace.

WHY CHOOSE UAEU?

1 EXCELLENCE

At UAEU we focus on the quality of the learning experience for each student. UAEU's "excellence agenda" involves every aspect of the university. Here you will find the finest faculty in the nation, the most advanced technology in the region and the most modern and attractive campus facilities to be found anywhere. Our unrelenting focus on excellence ensures that your degree is highly regarded, both nationally and internationally, and that you will leave the university fully equipped for professional and personal success.

2 INTERNATIONAL RECOGNITION

Based upon our international reputation, the employability of our graduates, and our research productivity, UAEU continues to rank among the best of the world's universities. QS, a London-based international ranking of the world's leading universities, rates UAEU in the top 500. QS also includes UAEU on its list of the top 50 world universities that have been founded within the past 50 years.

3 EMPLOYABILITY OF OUR GRADUATES

Since our programs have been designed in partnership with employers, our graduates are highly sought after by both private and government entities. Our academic programs include not just classroom theory, but also practical internships and research experiences. Our graduates consistently find that their hands-on experience provides them both with the practical skills that employers value and with the connections and relationships that are an important part of the career-building process.

4 A SUPPORTIVE LEARNING ENVIRONMENT

UAEU is committed to providing the support to ensure that every student can be successful. Our support services include counseling, healthcare, IT support, disability support, career services, financial aid, international student services, alumni services, a student success center and a student council. Regardless of the obstacles that you encounter along the way, there is always a mentor, a counselor, or an advisor nearby to help. Each student is provided with an individual academic advisor to assist with the critical decisions and choices that you face along the road to academic and career success.

5 A VIBRANT LIVING ENVIRONMENT

Our goal is not only to give students an excellent degree qualification but also to ensure that you have fun along the way. Our students come from 64 countries, so you will interact with and learn from people of diverse cultural backgrounds. The university offers a wealth of extra-curricular activities and life-enhancing experiences to enrich your university experience, and with almost 50 Clubs and Societies at UAEU, there is no shortage of opportunities to have fun outside of lectures and to make friends. UAEU's campus is a real community with multiple cafés and restaurants, retail and banking facilities, bright, modern campus residences, and exceptional athletic and recreational facilities.

6 A MAGNIFICENT NEW CAMPUS

The new UAEU campus features the most modern architecture, zones for specialized research centers, cutting edge IT network infrastructure, classrooms and labs that feature the latest equipment and instructional technology to enhance student learning. There is also an expansive library offering vast physical and electronic resources, two world class health clubs equipped with latest fitness equipment, two Olympic sized swimming pools, as well as tennis, basketball, and badminton courts.

7 CUTTING-EDGE RESEARCH

The UAEU is the nation's premier research university. We not only transmit knowledge to our students, but through our colleges and research centers we help to create new knowledge, work on developing new treatments for cancer, produce new technology for addressing the world's energy needs and develop new techniques for increasing the global food supply. Each year our historians and archaeologists help to discover and assess historical artifacts concerning the accomplishments and culture of the people from this part of the world. As a UAEU student, you will have the opportunity to work side by side with internationally known research faculty on these exciting projects.

8 COMMUNITY OUTREACH

As the UAE's national university, UAEU recognizes the responsibility of the university and our graduates to contribute to the wellbeing of the broader community. We encourage our students and staff to give back to the community through civic engagement, public service, and research. The university helps students connect with volunteer and community service organizations in the student's particular area of interest.

9 CHOICE

No university in the nation provides as many academic choices as UAEU. The university offers 52 Bachelor's degree programs, 31 Master's programs, a Doctor of Medicine (MD), a Doctor of Pharmacy (Pharm.D), a Ph.D program, and a Doctor of Business Administration (DBA) across a broad range of disciplines, including business, economics, education, engineering, food and agriculture, humanities, the social sciences, IT, law, medicine and health sciences, and the natural sciences. Many of our degree programs are unique to UAEU, and many of them are offered in unique combinations. Whatever your interests, talents, and goals, UAEU has a program to match.
